REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicants amendments to the claims filed on 4/9/09 have overcome the previously relied upon prior art rejection of Gray et al. (US Pat. 5,595,826). Gray et al. does not teach or suggest the alkylsiloxanes having at least one carbinol group which satisfies formulae (II), (III) or (IIIb) of the instant claims. Further, Gray et al. does not teach or suggest alkylsiloxanes having carboxy or amino groups as required by many of the independent claims. Specifically, independent claims 2, 3 and 4 are directed to dental impression compositions comprising alkylsiloxanes which have carbinol, carboxy or amino groups, respectively. Independent claims 7, 20 and 27 are directed to two-part dental impression systems comprising alkylsiloxanes which have carbinol, carboxy or amino groups, respectively. Independent claims 12, 24 and 31 are directed to methods for preparing a dental impression composition comprising alkylsiloxanes which have carbinol, carboxy or amino groups, respectively. Since none of the art of record teaches or fairly suggests the compositions of independent claims 2, 3 and 4, the other independent claims are also found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
